

List of Files

Filename	Purpose
ws-exe-sol.sty	exercises and solutions style file, requires – <code>exsheets</code> package http://www.ctan.org/pkg/exsheets
exercises_and_solutions.tex exercises_and_solutions.pdf	sample file
ws-thm-style1.sty	theorem environments with frames, style 1, requires – <code>mdframed</code> package https://www.ctan.org/pkg/mdframed
theoremSample1.tex theoremSample1.pdf	sample file
ws-thm-style2.sty	theorem environments with frames, style 2, requires - <code>tcolorbox</code> package https://www.ctan.org/pkg/tcolorbox
theoremSample2.tex theoremSample2.pdf	sample file
font-test.tex font-test.pdf	sample text typeset in Utopia font, requires - <code>fourier</code> package https://www.ctan.org/pkg/fourier
glossaries.tex glossaries.pdf	sample file with glossaries and acronyms, requires - <code>glossaries</code> package https://www.ctan.org/pkg/glossaries
nomenclature.tex nomenclature.pdf	sample text typeset with nomenclature, requires - <code>nomenc1</code> package https://www.ctan.org/pkg/nomenc1

`exsheets`, `mdframed`, `tcolorbox`, `fourier` packages are part of any standard LaTeX installation. So, the users are not required to download any extra packages to use these options.

Apart from the above mentioned look and design options, authors who are already familiar with such similar packages can select their favorite package for formatting their books. However, please try to limit your use of additional packages as they frequently introduce incompatibilities.
